# CRISIS MANAGEMENT AND RISK MITIGATION

Crisis management and risk mitigation training focuses on how to deal with any potential emergencies and disruptive events. Such as include natural disasters, severe weather, flooding, financial losses and any deliberate internal or external acts including attacks such as a lone active shooter. This course also aims to provide you with a practical integrated approach to the fundamental principles of crisis management by promoting solutions and providing attendees with a wider understanding of how to react under such testing circumstances.

**Rob Hoblin**
